

Parental consent for the use of medication in school

As a school we are looking to provide the best care to your child whilst in our charge. In the event that your child is unwell at school, we are able to administer over the counter medication with your parental consent.

The medicines will be administered in accordance with the dosages and age ranges on the packet and will be recorded in the school office.

You will also be informed with a phone call prior to your child being given any medication.

Our current Drugs and Medication Policy is available on the school website:

<https://bayford.herts.sch.uk/policies/#school>

Name of child.....
